DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claims 1- considered unpatentable for the reasons indicated below:

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 7, 9-11, 17, 18, 20 and 22-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Hanas et al (US 4,158,910).

Hanas et al discloses a molding press comprising all the elements claimed including, ineter alia, a lower adaptor (46, 34); an upper adaptor (32, 44); a tool package formed by the same; a lower shoe detail (10); and an upper shoe detail (8). See whole patent.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hanas et al.

Hanas et al disclose the invention substantially as claimed except for the intent of the same for a punch press. However, it is the Examiner's opinion that the teachings of Hanas et al are equally applicable to punch presses in that both a molding press and punch press include interchangeable dies. Thus, it would have been obvious to the ordinary artisan at the time of the instant invention to provide punch press for the tool package for the reasons stated supra.

Allowable Subject Matter

6. Claims 3-6, 8, 12-15, 17, 19 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claim 26 is allowed.

Conclusion
